FACING THE FUTURE

BROOMFRIO
Holding

BROOM FRIO HOLDING

Broom Frio Holding (BFH) a company dedicated to providing services related to the activity of cold storage, packing and warehousing for fruits.

We are located in strategic locations, with plants in Ovalle (Chile), Morropé (Peru) and Ridderkerk (Holland).

We are part of Broom Group and its development area Broom Logistics, which through its different companies and wide coverage allows us to provide comprehensive services throughout the logistics chain, both nationally and internationally.

BROOM GROUP
FACING THE FUTURE

Vision

Contribute to the care and treatment of our clients' products, with the highest quality standards and the commitment of our professionals.

Mission

Process the fruit of our clients, in order to reach the objective markets with quality fruit for the final consumer. In the time, and conditions required by the market, with uninterrupted availability of processes.

A wide-angle photograph of a large industrial warehouse. In the foreground, several tall stacks of blue and green boxes are visible, some labeled 'CITRUS'. In the middle ground, two orange forklifts are operating. The floor is polished and reflective. The ceiling has industrial lighting. A large, stylized blue circular graphic is overlaid on the left side of the image.

Our goal is to be part of the logistics chain so that the fruit reaches its destination in the most optimal conditions for consumption, and that its freshness and flavors can be enjoyed as if it were recently harvested from the tree.

BROOMFRIO

STORAGE

Contribute to the care and treatment of our clients' products, with the highest quality standards and the commitment of our professionals.

Your products need to be stored separately, because of different temperatures requirements and sensitivities we can offer our temperature-controlled rooms.

To guarantee constant quality during the storage, our internal inspections by our warehouse specialists guarantees the value of your goods.

We control the temperature during the day and night to make sure your products are stored safely.
